- The aforementioned assignment has been granted by GEBA Trans in its capacity as freight forwarder.
- This Transportorder is subject to our General Carrier Conditions, available at <https://www.gebatrans.com/en/general-carrier-conditions/>
- Should you not provide for an immediate dispute of the aforementioned, then this expedition assignment and these conditions become definitive and legally binding. Please note that any Terms of Service of similar conditions on your end are hereby explicitly rejected.
- All our work is subject to Dutch law. The Court of Limburg, department Roermond, is competent to any disputes arising from this agreement or matters related to it.
- You guarantee to complete the transport yourself and that you will not outsource it to any third party, unless you have received the prior written express consent of GEBA Trans to do so.
- Contractor guarantees that, during the execution of the assignment by the own organization or during execution by a subcontractor appointed for this purpose, all staff members will at least be paid the legal minimum wage and that the German law regarding minimum wages (Mindestlohngesetz), especially section 20, will be complied with. Contractor safeguards Customer for all possible third party claims with regards to violations of the Dutch or German laws regarding the payment of minimum wages.
- You are explicitly not permitted to enter into a direct cooperation, in the broadest possible definition, with our clients, principals, loading or unloading locations and/or our other logistical service providers with whom you cooperate while cooperating with us.
- Any irregularities found must be immediately reported to GEBA Trans B.V.
- The original, signed shipment documents (CMR, delivery note, pallet ticket) need to be archived by you at all times, so that they also remain available for GEBA Trans.
- If the shipment is accompanied by a T-document, the driver must have a copy of the MRN document stamped by the receiver.
- You will perform the transport subject to CMR / AVC conditions.
